*(4/25/18) The numbers below have been updated to adjust for mislabeled pension contribution data provided in an Illinois Department of Insurance FOIA request. The changes, however, are not material to the overall findings of the paper – that 368 pension funds were shorted their required contributions. Each pension fund's FY 2016 "required contribution" has been corrected and shortfalls/surpluses updated.

Nearly 60 percent of police and fire pensions were shorted their required contributions in 2016

Required vs. actual city contributions to downstate police and fire pension funds, 2016
